BREWING COMPANY

RETAIL BEER & PRICE LIST

1st April to 30th September 2019

Please visit the brewery for draught beer, canned beer & brewery merchandise.
From Saturday 27th April, we are open every Saturday from 10am until 4pm so please just pop in.
We are also normally here from Monday to Friday between the hours of 8.30am and 4.00pm, but
please do call ahead to make sure we have not popped out.

Basic information you need to know about buying beer from us is detailed below. If you still have questions, please do get in touch:

HOW TO PURCHASE

Cans are available to purchase online via our website or simply visit us at the brewery to stock up.

Draught beer can be pre-ordered in quantities of 36 pint polypin or 72 pint cask from our full range of available beers. Beers available for pre-order in these quantities are on the price list below.

For quantities of draught beer below this, we aim to have at least two different beers available for walk in sales or smaller pre-orders, every Friday and Saturday, from the Easter weekend onwards. Beers available for walk in sales will be posted on the News section of our website by Thursday of each week. Prices are outlined below, but please be aware that not all beers will be available in quantities below 36 pints.

DRAUGHT BEER PACKAGING SIZES AND OPTIONS

3.2 Pint Growler – We sell glass Growlers which are vessels designed for draught beer which can be cleaned and re-used time and again. If you are local to the brewery, this is the option for you. Simply pop in with your Growler and ask us to fill it up.

9 Pint (5 litre) Minikeg - A small keg with tap dispense perfect for the weekend. Can be sealed between servings meaning the beer stays fresher slightly longer. Supplied ready to serve immediately. Simply recycle the packaging when empty.

36 or 18 Pint (20 or 10 litre) Polypin – A bag in a box, with tap dispense, supplied ready to serve immediately. Simply recycle the packaging when empty.

72 Pint (40 litre) Cask Bright – We decant from one cask to another, leaving the sediment behind, meaning the beer can be served immediately. We supply cask cradle, tap and instructions on how to open the beer. A deposit is charged on this equipment and refunded when returned.

72 Pint (40 litre) Cask Live – This is what the pubs get. Please note live beer will need settling in a cool environment for at least 36 hours prior to serving. Only choose this option if you are able to achieve this. We supply cask cradle, tap and instructions on how to open the beer. A deposit is charged on this equipment and refunded when returned.

Please note, with the exception of the live cask option, all of our draught beer is sold bright, which means it has been settled at the brewery and poured into the final package leaving the yeast and sediment behind. This means the beer does not require any further settling, it can be consumed immediately. It also means that the shelf life is short – depending on the package the beer will last for 2 to 3 days before it begins to noticeably degrade. We therefore sell bright draught beer on the assumption that it will be consumed within 2 days of purchase.

RETAIL PRICE LIST – 1st APRIL TO 30th SEPTEMBER 2019
